- Victoria Falls
- Chobe National Park
- Mudumu National Park
- Spitzkuppe Mountain
- Swakopmund
- Namib Desert
- Fish River Canyon
- Table Mountain
- Cape of Goodhope

Our ride starts in Pretoria. From here we head to the **Botswana** border. **Botswana** still remains unspoilt considering the wealth that lies beneath her soil - diamonds. Here **elephant** and **other wildlife** still roam free and are encountered all over. A healthy respect is still to be found between Mother Nature and the local people. We ride through Francistown and Nata and then visit the **Makgadikgadi Pans**. Then its off to **Livingstone** - gateway to the mighty Victoria Falls.

**Zambia** is known for its wildlife. Also does it share one of the world's natural

wonders - the **Victoria Falls** - with her neighbor Zimbabwe. The might of the **Victoria Falls** will remain with you forever and no motorcycle journey through Southern Africa is complete without experiencing it. To fully enjoy our time at the falls one can enjoy from **white water rafting** down the mighty **Zambezi River** to **micro light flights** over the falls.

We continue our motorcycle safari heading into **Namibia** via the **Chobe National Park**. Namibia with its endless horizons, its contrasting landscapes and pristine beauty will forever steal

your heart. The vistas of the **Namib Desert**, that of **Spitzkuppe Mountain** and the **Fish River Canyon** are like nowhere else on the planet.

Namibia must feature on every traveler's "to do list". Our journey nears the end as we start heading down south towards **Cape Town** where **Table Mountain** welcomes us to the **Cape of Goodhope**. Some time spent in the Mother City will sweeten the farewell.

## About the ride

**Rating** - a moderate easy ride with mainly asphalt roads and limited gravel in Namibia.

**Pillions** - this ride is only for experienced pillions.

**Gravel vs. Asphalt** - well maintained packed gravel roads in Namibia and the rest on asphalt.

**Minimum group size** - 6 riders

**Back up vehicle** - yes
