

# The Whale Route - One day ride

Prices - R 3000.00 with rented bike & R 800.00 for pillion

Dates - any day but bookings essential

## About the Whale Route

### Tour information:

Touring days	1
Distance in km's	200
Bike rental days	1

We collect our motorcycles early morning to ensure enough time to enjoy our leisurely and scenic ride to **Hermanus**. This busy little coastal town is rated as South Africa's top **whale watching** destination. The mammoth **Southern Right whales** seeks sanctuary in Walker Bay from around July till November of each year.

The **coastal route** is best enjoyed early morning when the roads are still quiet out to Hermanus. We leave the hustle and the bustle of **Cape Town** behind us as we head out of town in the direction of False Bay. The **Whale Route** allows riders the opportunity to enjoy the never-ending sweeping curves of the scenic **Clarence Drive** route along the eastern shores of False Bay. We ride by numerous little coastal villages before reaching Hermanus before lunch time. Time permitting we can make a brief stop at the **penguin breeding colony** at Betty's Bay.

### Tour highlights:

- Cape Town
- Whale watching
- Table Mountain
- Scenic Mountain Passes
- Clarence Drive
- Penguin colony

If your planned ride is during the **whale season** from July till November, then you stand a very good chance to enjoy some whale watching, either by boat or from the shore. Alternatively, after lunch, we ride inland and descend down **Sir Lowry's Pass** to enjoy a panoramic view of the Cape Peninsula before we slowly make our way back to the city. This circular route has various attractive options to enjoy and we therefore suggest that you enquire about these routes to follow or simply speak to your guide for the most fun under the sun.

The distance for the day on the **Hermanus Whale Route** is – 200km.

*Includes* – bike rental, guide on motorcycle.
